

9/20/2010

Dear Ken

Thank you so much for the great tape. It brought back so vividly memories of a "family neighborhood" and all that we shared together.

It must have taken you quite a while to accumulate, sort, and arrange a wonderful tape.

Pictures of Blue Hill Cove, Heck House, "The Y", I could go on and on - you brought it all back to me. What a tremendous job you accomplished!

The People at Fireman's were fantastic in relating their experiences (I know some of them personally). Dorothy Rosenberg is a very dear friend. She used to sing with me at many functions. My dear me, what can I say - with his vibrant personality - made me smile & touch his face on the TV. I shall treasure this tape & play it quite often. We didn't care much in those days, but we never thought we were lacking anything truly important. Not much money then, but we had family & friends & neighbors who were like "extended families". If you have an extra copy of the tape, it would be greatly appreciated. Thank you again -

With all my heart, I wish you & your family a healthy, sweet New Year.

May your heart be light with laughter
Your mind be free from worry
Your days be bright with sunshine
And your life be filled with love.

Most sincerely

BIBI baldstein
